

Level 3 Diploma in Adult Care

This knowledge & skills-based qualification ensures that the learner can demonstrate understanding and effective practice across both health and adult care. This supports the vision of employers providing integrated services and the portability of skills and knowledge across the health and adult care workforce.

This diploma is formed of mandatory and optional units. The mandatory units listed below cover core competencies while optional units allow learners to choose from a variety of areas to tailor the qualification to their needs, interests and to reflect the context of their work:

- communication
- personal development
- values and behaviours
- health and wellbeing
- responsibilities
- safeguarding.

The Level 3 Diploma(s) in Health will also use these core competencies along with additional mandatory content.

How it helps care and support workers

This qualification will support learners to develop skills and knowledge needed to provide frontline care for vulnerable adults within their own homes, day care centres, residential and nursing homes and other healthcare settings.

The content applies to a variety of roles, including a lead adult care worker and lead personal assistant.

There are a wide range of optional units to support areas of specialism, including:

learning disability services	residential care	leadership.
end of life care	domiciliary care	
dementia care	healthcare support	

Who offers it?

This qualification is available from a range of approved learning providers, including a number of Skills for Care's [endorsed learning providers](#).

Is there funding available?

Yes, adult social care employers in England can claim up to £800 per staff member on completion of the Level 3 Diploma in Adult Care. If the learner is completing the diploma as part of the Lead Adult Care Worker apprenticeship, employers can claim up to £800 upon completion of the diploma and a further £500 upon successful completion of the apprenticeship following the end-point assessment.
